

Irrigation and Water Products

2021

For more than 45 years TAVLIT has been supplying high-end and innovative products to leading international companies in the irrigation & water industry and to DIY chains in over 75 countries.

TAVLIT offers a wide range of high end products which includes plastic filters, valves, complete range of connectors and irrigation emitters (Foggers, Micro sprinklers), and more.

All of TAVLIT products are based on years of experience and working closely with our customers in order to offer the best solutions to fit the market changing needs.

The products are developed and manufactured in-house by our experienced team enabling us to respond quickly and efficiently to our customers' requirements.

As a quality brand TAVLIT is an ISO 9001:2000 certified for total quality management.

Service

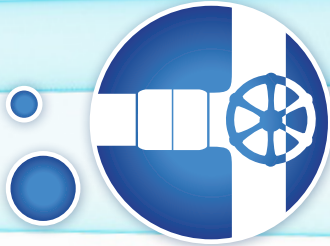

At TAVLIT we do our best in order to fulfill the customers' expectations with regards to service. We respond to the customer needs, whether logistical, technical or other in the most professional manner.

We pride ourselves that most of our customers have been with us for many years, using our products to help them grow their businesses.

The company constantly seeking to spread its wings and is looking for professional dealers of irrigation products and for irrigation and water integrators the company can offer its products and knowhow.

Vision

TAVLIT is committed to combine a tradition of quality, service, total personal commitment and responsibility with the ambition to integrate new technologies, innovate and develop new products that will help the company to service its customers better. We aim to add value to the company and to all our stakeholders: clients, employees, management, owners, suppliers, the community that surrounds us and the world we live in.

Green commitment

As part of the industry that manages our planet's most crucial resource - water, we have a deep understanding of our responsibility to the environment. We take this role beyond the product itself and have embraced social and ecological responsibility within our own company by scrutinizing our waste production and water and energy consumption reducing possible foot print of our production on the environment. In addition we make every effort that our professional and innovative products have a positive effect on global water consumption.

The company was granted the ISO 14001 :2004 certificate for Environmental Management System.

Management

TAVLIT, a privately held company, was incorporated in 1971 and is now led by Managing Director Yoav Nahmias, 2nd generation to the founding members. TAVLIT's top management is a group of professionals bringing many years of experience in irrigation, development, production, logistics and service.

Corporate responsibility

Being a leading company for many years in the water and irrigation industry, Tavlit finds it necessary to invest management efforts and company's resources in corporate social responsibility. From the company's perspective, supporting charitable causes is very important, however it does not suffice in a world in which natural resources are running scarce, Community, economic and social gaps are growing wide and deep. Believing that corporate social responsibility helps us in creating a sustainable, better business, Tavlit holds strong ties with the community - we are implementing a policy of social inclusion and diversity alongside policies of reducing our carbon footprint, running an equal opportunities work environment and supporting our management and employees in their effort to balance work and life.

The company was granted OHSAS 18001:2007 certificate for Occupational Health & Safety Management system.

Swivel Fittings | Materials: Body and swivel: PP | O-Ring: EPDM | Threads: BSPT

Ball Valves

Features:

- Designed to resist high working pressure and a wide temperature range.
- Made with Reliability, Long life and durability in mind.
- High chemical resistance.
- Self-Seal Threads.

Technical specification:

- Materials: See below.
- Max. Working pressure: 16kgs/cm².
- Temperature range: -20°C to 90°C.
- Threads: BSPP

THREAD-Lock Saddle Clamp | Materials: PP | O-Ring: EPDM | Threads: BSPT

Fertilizer resistant.

Max. working pressure: 10 kg/cm²

Features:

High pressure saddles without bolts

Unique design

Save time – quick and easy assembly and maintenance

Install without tools

No metal parts = no corrosion

- Available in self seal version – add "S" to cat code
- Available with Stainless steel rings – add "R" to cat code

UNIQUE

	SAD631D	63 x 1"	25
	SAD63112D	63 x 1 1/2"	25

Quick Assembly

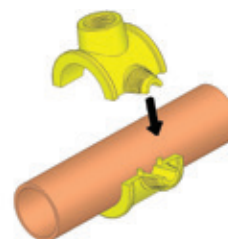

1

Place the lower part of the saddle below the pipe and hold it in position.

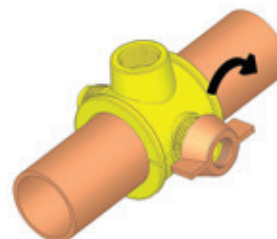

2

Place the upper part of the saddle on top of the pipe. Align the holes in the upper part with the pins in the lower part. Hold the two pieces of the saddle together roughly parallel to each other.

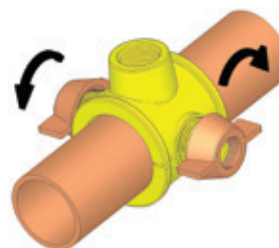

3

Thread the first wing nut onto the start of the thread about 1-1½ turns. Continue holding the parts of the saddle parallel to each other.

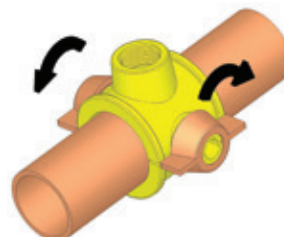

4

Thread the second wing nut onto the start of the thread about 1-1½ turns. You may now release the two parts of the saddle clamp.

5

Thread both wing nuts simultaneously and tighten.

The Saddle is now ready to use. Drill the hole in the pipe through the saddle outlet. Make certain you do not damage the threads.

Fertilizer resistant.

All 16 also fit 17.

16-17mm: 0.7 - 1.5mm wall thickness.
20mm: 0.9 - 2.0mm wall thickness.
25mm: 1.4 - 2.0mm wall thickness.

All nut lock fittings available in American 1/2" (16-18mm) pipe diameter.
Add "A" to cat code of 16 nut locks for American version.

Fertilizer resistant.

Tavlit threaded fittings range is available with the unique self seal system (pre-assembled o-rings) that saves labor and Teflon, and allows tightening without tools.

For self seal version of product add "S" to catalog code.

- Special use.
- Shoulder o-ring seat.
- Short thread.

Threaded Fittings-Self Seal | Materials: PP | O-Ring: EPDM | Threads: BSPT

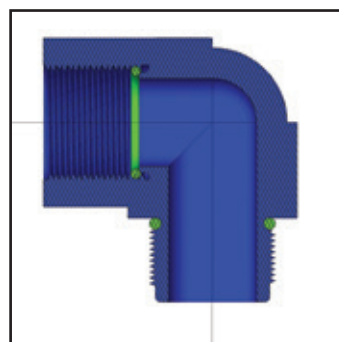

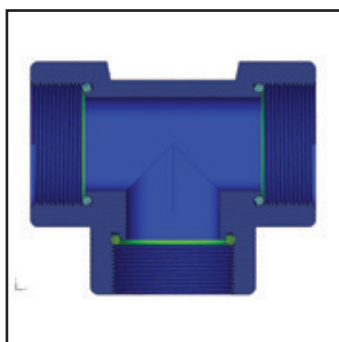

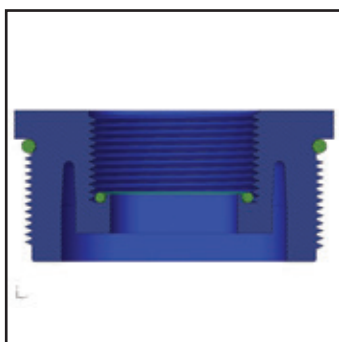

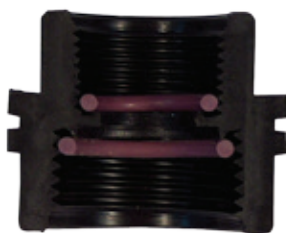

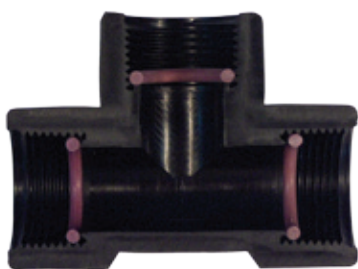

Fertilizer resistant.

Max. working pressure: 16 kg/cm²

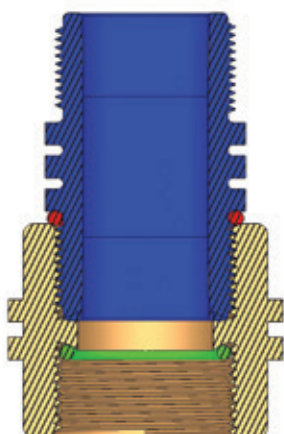

UNIQUE

Available for all Tavlit threaded fittings range

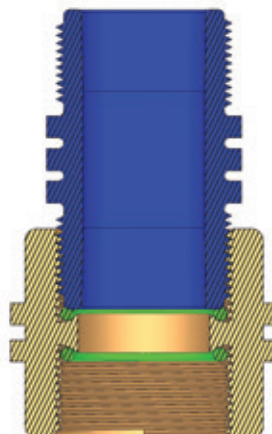

1. Save labour and teflon tape
2. Tighten by hand only
3. Full proof using our male to female assembly
4. Add "s" to threaded fittings cat. No. for Self-Seal
5. EPDM o-ring - Fertilizer resistant

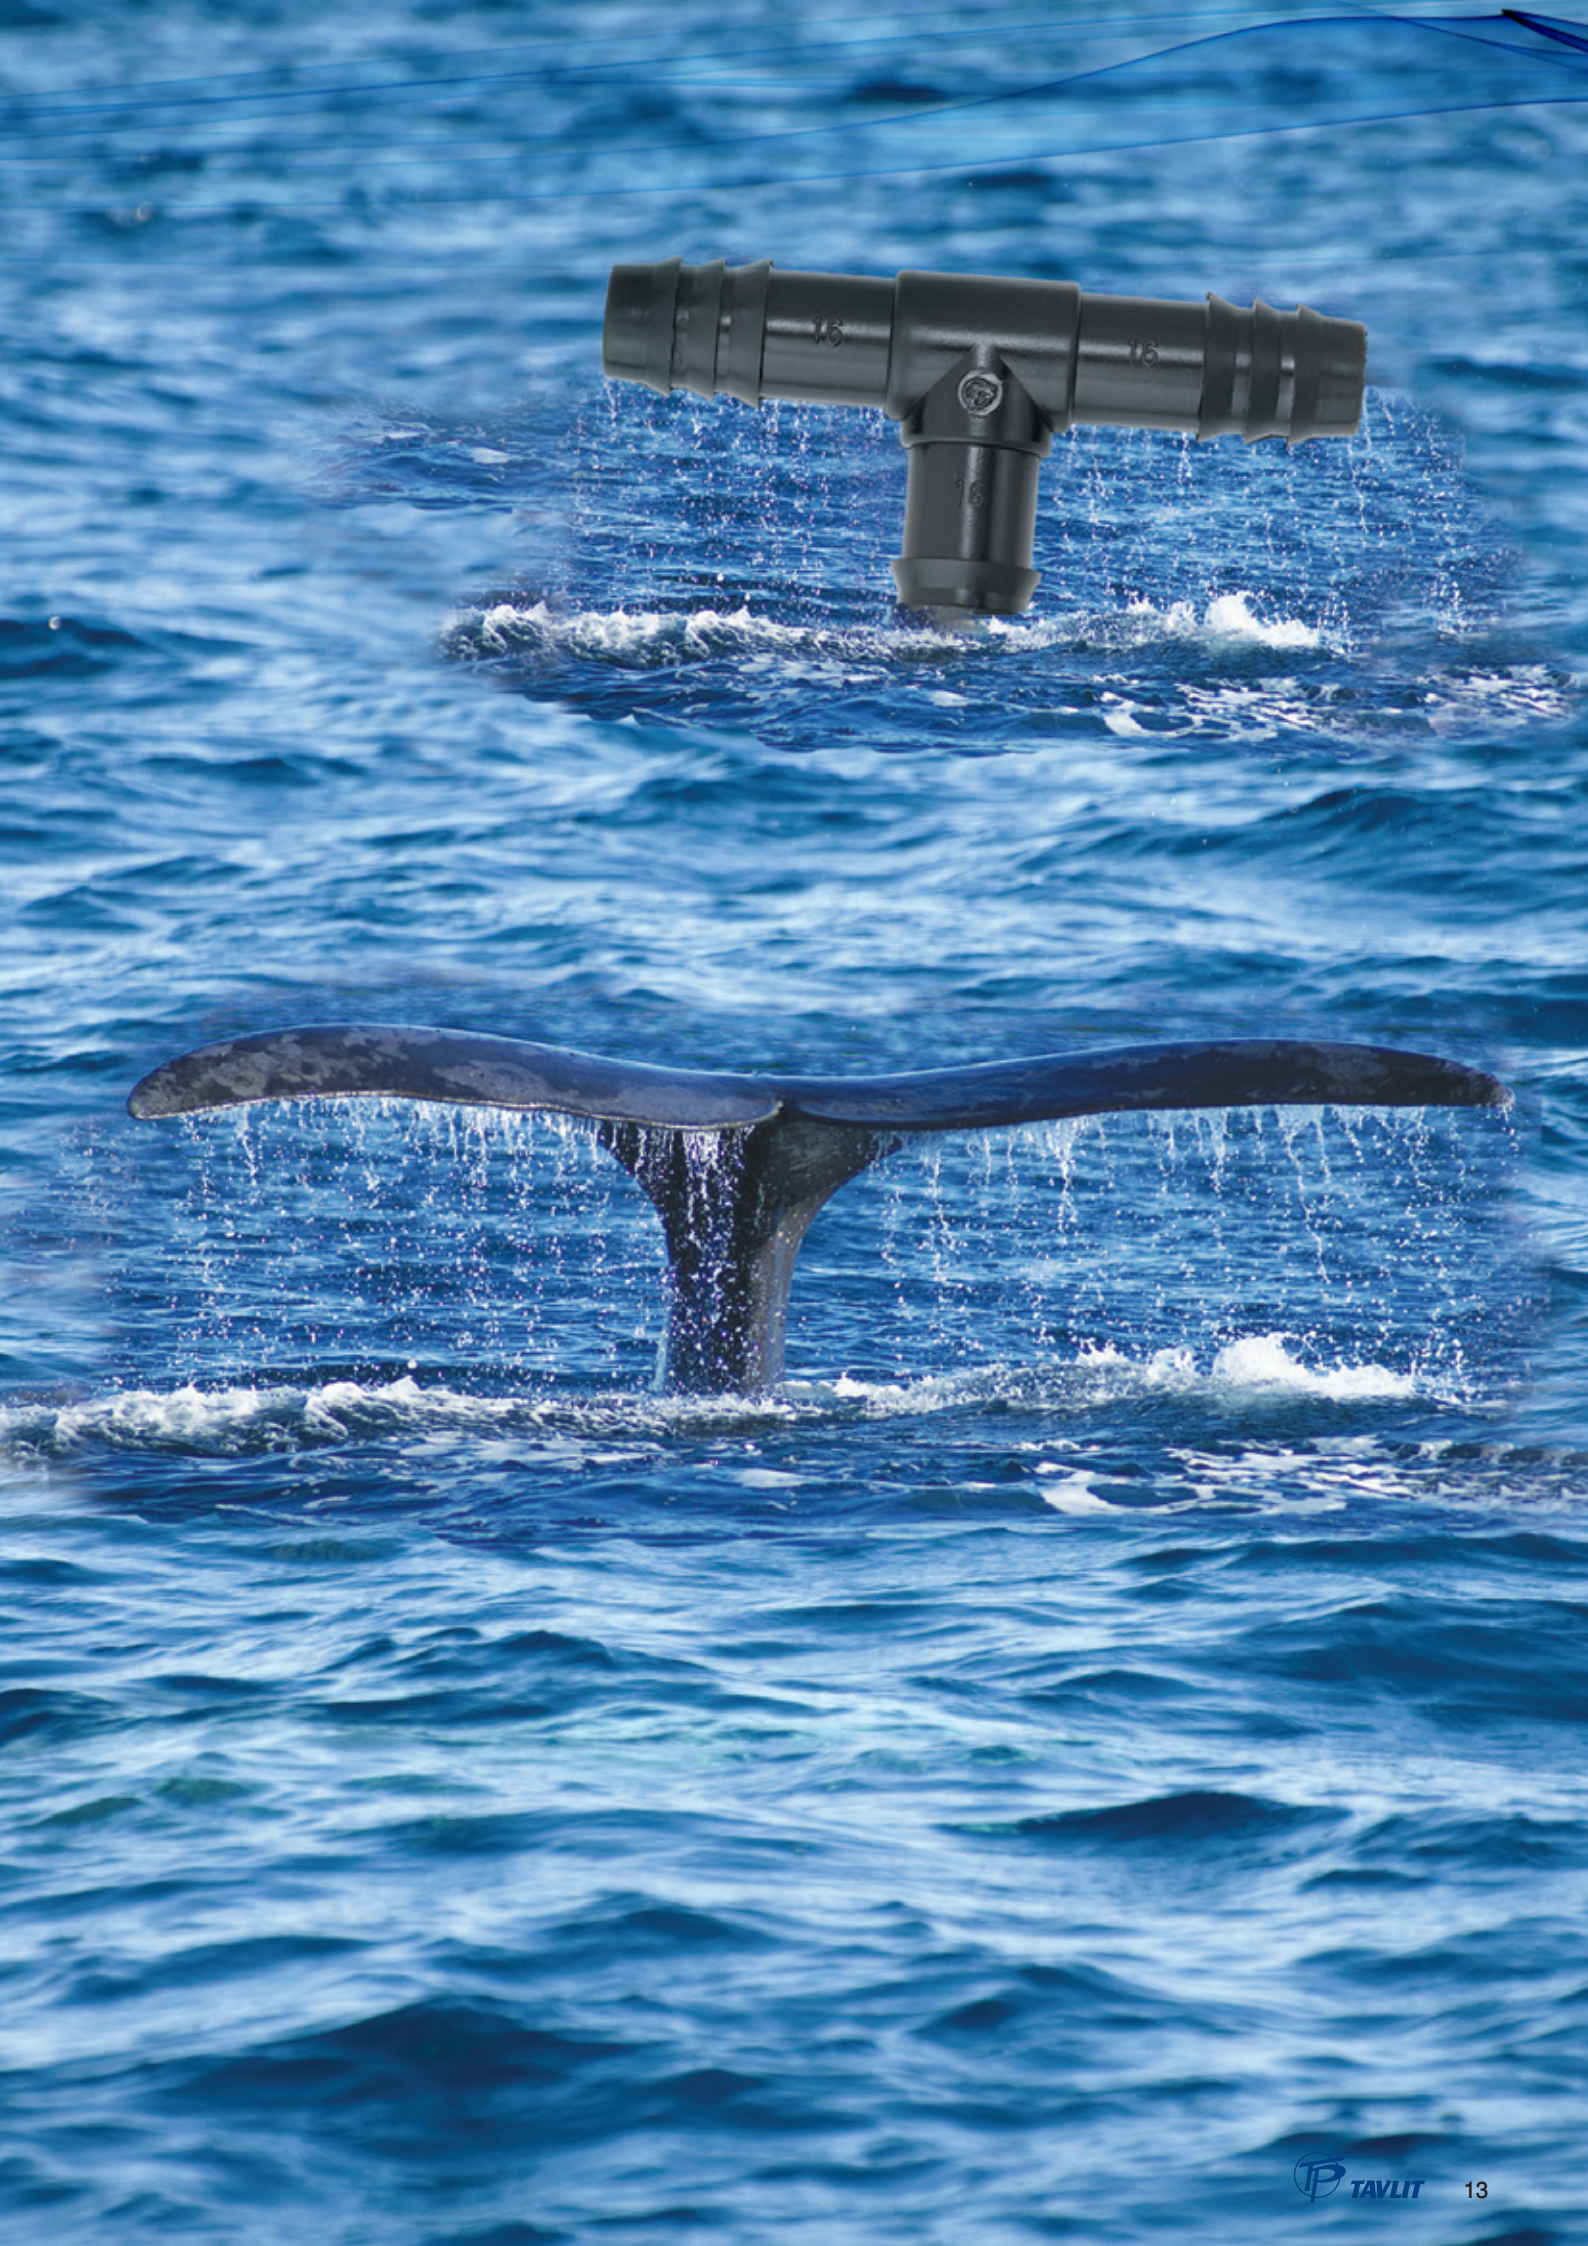

Self Seal Assembly

Seal on male thread O-ring

Seal on female thread O-ring

Standard color: 12, 16, 20, 25 - black; 17 - brown;
other colors and raw materials available on special request

	PUNLF19	19mm OVER SIZE ONLY	NET

LAY FLAT DRIVER

	Cat. No.	Size	Packing
	LFDRS	7mm HEX - FOR 10,12 ONLY	NET
	LFDR	10mm HEX - FOR ALL SIZES	NET

- Punch hole using LF Puncher.
For regular ø14 mm. For oversize ø19 mm
- Insert Lay Flat Starter using L.F Driver: Place the fitting nook inside the hole and turn until fully inside pipe. Hold Driver in place and tighten wing nut by hand.
- Press pipe against Lay Flat body.
- Tighten nut over pipe.

Nut Drip - Tape Valves | Materials: Body - PP or acetal | O-Ring: EPDM | Handle - PP | Nut - PP

| Threads: BSPT or NPT | Max. working pressure: 8 kg/cm²

- For tape 16&17 mm O.D
- Wall thickness 4 to 45 mil
- Tape with or without seam

P.V.C Start Connectors | Materials: Acetal for barb connectors | PP for tape connectors

Threads: BSPT | Max. working pressure: 8 kg/cm²

Flexible leakfree joint.
Minimal flow restriction.
Long life working with chemicals and out exposure.

Suitable for 32mm O.D and up.
Wall Thickness from 2mm to 5.5mm.

P.V.C. DRIPLINE START CONNECTORS SINGLE

	Cat. No.	Size	Packing
